PRECOLLEGE MILESTONES
COMPLETION OF DEVELOPMENTAL COURSE REQUIREMENTS: ARIZONA

Percentage of Arizona Community College students who completed developmental English/reading and mathematics course requirements within two years, by age and race/ethnicity: 2006

What Is Measured?
Percentage of Arizona Community College students who completed the developmental English/reading and mathematics requirements within two years

Who Is Counted?
Students entering Arizona Community Colleges for the first time in fall 2006

What It Tells Us
Some 29 percent of students age 17-19, 22 percent of students age 20 to 24, and 22 percent of students 25 or older in Arizona Community Colleges who enrolled in developmental English/reading and mathematics courses during their first academic year completed the developmental English/reading requirements within two years.
### Why It's Important

Most beginning community college students must complete at least one developmental education course in mathematics or English (reading, writing, or both), and many must complete multiple courses in one or more subjects. Completing the highest-level developmental course in a subject is the final precollege milestone and is often required to transfer to a four-year institution or to earn a certificate or associate degree.

### ABOUT THE DATA

Race/ethnicity: Other includes Asian; American Indian or Alaska Native; and Native Hawaiian or Other Pacific Islander. Race categories exclude Hispanic/Latino origin unless specified.
