**What Is Measured?**
Percentage of Utah Community College students who completed the developmental English/reading requirements within two years

**Who Is Counted?**
Students entering Utah Community Colleges for the first time in fall 2006

**What It Tells Us**
Some 82 percent of students age 17 to 19, 84 percent of students age 20 to 24, and 89 percent of students age 25 or older in Utah Community Colleges who enrolled in a developmental English/reading course during their first academic year completed the developmental English/reading requirements within two years.
Why It's Important
Most beginning community college students must complete at least one developmental education course in mathematics or English (reading, writing, or both), and many must complete multiple courses in one or more subjects. Completing the highest-level developmental course in a subject is the final precollege milestone and is often required to transfer to a four-year institution or to earn a certificate or associate degree.

ABOUT THE DATA
Race/ethnicity: Other includes Asian; American Indian or Alaska Native; and Native Hawaiian or Other Pacific Islander. Race categories exclude Hispanic/Latino origin unless specified.
